

Template for approval by board:

- **Name given to the project (please keep it short, no more than 1-5 words)**
Examining the Influence of Feedback Mechanisms on Student Performance and Engagement in Higher Education
- **Name(s) of the fellow(s) taking part (with institutional affiliation(s) please)**
Dr. Anita Sengar – UPES, India
Dr. Dhruv Kumar – UPES, India
- **Identify the 1-5 keywords associated with the project**
Qualitative, Feedback mechanism, student performance, higher education

- **Summary of the project focus**

- **aim (which issue, or opportunity is it addressing)**

Feedback mechanisms play a crucial role in improving teaching in higher education. Various forms of feedback include Real-time Feedback, Peer Feedback, Continuous Assessment, Technology-Enabled Feedback, personalized Feedback, and Feedback on Teaching. The objectives of this project are:

- Identification of gaps and challenges in the current student feedback mechanisms.

- comprehensive investigation to understand the impact on student performance and engagement.

- **Likely or potential impact that is to be expected from the project**

This research proposal provides a comprehensive framework for investigating the influence of feedback mechanisms on student performance and engagement for improving student learning outcomes and overall satisfaction with the learning process in higher education.

- **How the project is going to engage GUS institutions/communities/stakeholders**

This project follows an exploratory research design with a Qualitative approach. Data will be collected through In-depth interviews, Focused group discussions, surveys, and observation.

- Respondents: Students, Faculty members, and administrators (GUS institutions)
- Judgmental sampling technique
- Analysis technique: Thematic analysis/Grounded theory

- Possible resource implications (ideally keep the summary limited to 30 lines - you can add attachments with details within reason)

Software for Analysis, Voice recorder for data collection, Conference, Research assistant etc.

- Work plan

Please indicate briefly and as concrete as possible what you expect the project to have achieved after

- 6 months
Literature review, Fieldwork for assessment
- 12 months (interim report)
Data Collection
- 24 months (second interim report)
Data collection, Analysis
- 36 months (final report)
Data Analysis, preparation of the final report
